***Re: Recommendation for Frank Mackle & Mackle Construction***

*To Whom it may concern,*

*I have employed Mackle Construction for numerous construction projects over the past several years. Most notably, our recently completed 17,000 square foot headquarters in Little Havana. Throughout the entire process Frank Mackle and his team exceeded our expectations in every respect. Frank is always accessible and closely involved from start to finish.*

*Much like our own family run business, Frank takes great pride in being a 4th generation builder carrying on a longstanding family tradition. We share many of the same values crucial to success in any business. Hard work, integrity, commitment to quality and reputation, just to name a few.*

*It is with great pleasure that I recommend Frank Mackle as a general contractor.*

*Please feel free to telephone me with any questions.*

*Sincerely,*

**Jorge Padron**
